

TECHNICAL DATA SHEET - CATWELL LOGO

Mat with a logo, improving your company's image and providing a perfect clean. It is resistant to abrasion and has excellent suction capacity.

We are capable of making any shape and colour of your logo according to our colour samples. We will need a clear logo sent via email in *.jpg, *.pdf, *.cdr, *.ai format as input data for the production or quotation.

Upon approving the quotation and graphic design, the logo will be submitted to production. Mats are laser cut into the base material. If a two-coloured logo is ordered, a positive and negative can be made at a reduced price.
