

TECHNICAL DATA SHEET - CLEANWELL ATRIUM

A carpet-type mat made of antistatic polyamide piles. This mat is the perfect floor protecting solution (high degree of cleaning). It is intended for heavy activity, for example receptions. We recommend that the CLEANWELL ATRIUM mat should follow a mat used for rough dirt (TOPWELL, OPENWELL, BRUSHWELL)

The mat can be used for emergency routes and is certified according to the EN 13501-1 standard. Classification: Bfl-s1
