TECHNICAL DATA SHEET - COIN MAT

Height 3 and 4 mm, rubber mix.
Very strong and durable mats. They are used to cover floors, shelves, work tables and other workshop surfaces from which objects can fall off. The mats can also be used in the cargo areas of lorries and vans.

They can withstand low concentrations of acids and alkalis.

Versatile flooring. Besides industry, they can also be used in administrative buildings, commercial buildings, at airports, in lifts or buses.

Technical parameters

Material:	Rubber mix
Surface:	"penny gum"
Hardness:	70 Shore A
Specific Weight: (DIN53519)	1,5 t/m³
Tensile strength: (ISO 34-1)	4 MPa
Heat resistence:	-25 až 60 °C
Height:	3 mm or 4 mm
Colour:	black, grey
Size:	120 cm × 10 m
Format tolerance:	width +/- 50 mm; length 1000 mm
