

TECHNICAL DATA SHEET - SANITNESS

Module mat, height 12.7 mm.

These resistant rubber mats are intended for entrances, where they absorb the roughest dirt, mud and gravel. All are made of the finest rubber mixtures, to resist extreme climate conditions and maximum pedestrian frequency.

Projections on the underside enable water to flow under the mat.

All sides of the mat have safety tapered edges.

Technical parameters

Dimensions:	91 × 152 cm, 91 × 297 cm, 91 × 594 cm
Height:	12,7 mm
Material:	resilient rubber
Weight:	8 kg/m ²
Colour:	black
