# TECHNICAL DATA SHEET – Topwell 27 Extra

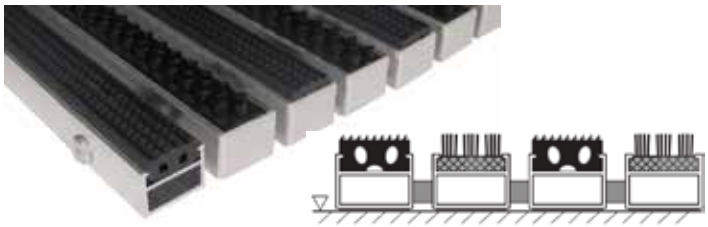

grooved PVC / brush 1

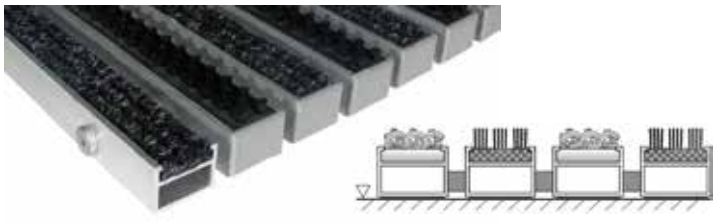

grooved PVC / Y-shaped aluminium

grooved PVC / brush strip 3

brush strips / textile strips

textile / Y-shaped aluminium

The foundation of Topwell 27mm Extra mats are 27mm wide aluminium sections, which alternate with either aluminium Y-shape sections or brush sections.

All is connected by a stainless steel wire and separated by rubber rings, making it possible to roll the mat for better handling when cleaning. Grooved PVC, textile or brush strips are inserted into the aluminium sections.

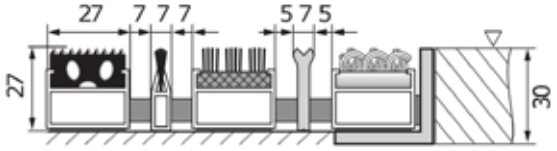

Individual fillings can be replaced once they become worn.

For practical reasons, we recommend unifying the type of filling – alternating PVC or brush filling with textile creates a height difference that may affect comfort when passing over the mat.

Alternatively, PVC/brush filling can be used in the first half of the mat and textile filling in the second half. This allows the cleaning effect of both types of fillings to be utilized.

**Fire-resistant version**
Topwell 27 mm Extra mats can be used on escape routes with a fire-resistant infill and are certified according to EN 13501-1+A1:2010. Reaction to fire classification varies depending on the type of infill:

Grooved PVC: Bfl-s1
Textile strips: Bfl-s1
Brush strips: Bfl-s1 – does not apply to the narrow brush (Brush 1)

## Technical data

| | |
|---|---|
| **Design:** | grooved PVC strip, textile strip, brush strip, Y-shaped aluminium scraper, narrow brush |
| **Dimensions:** | according to the client's requirements |
| **Height:** | 27 mm |
| **Weight:** | 15 - 17 kg/m² |
| **Installation:** | at floor level in prepared holes fitted with a 30 × 30 × 3 mm aluminium/stainless steel frame or freely laid on the floor in a 45 mm (up to 120 cm) or 65 mm aluminium frame |
| **Resistence:** | static load up to 8.5 t / 100 cm², not suitable for pallet trucks and forklift traffic |
| **Use:** | for very heavily frequented and heavily loaded entrances of shopping centers and department stores, for entrance areas of hotels, banks, restaurants, administrative buildings, as well as in front of family houses |
